

NEW Tools for Soft Skills Training

As part of the LEADER project, we have developed two innovative tools to facilitate training on soft skills. These can be used by teachers/training during in-classroom/in-company sessions.

E-Learning Platform

Includes 50 practical activities, available via the project's website:
www.leadertheproject.com

LEADER Game

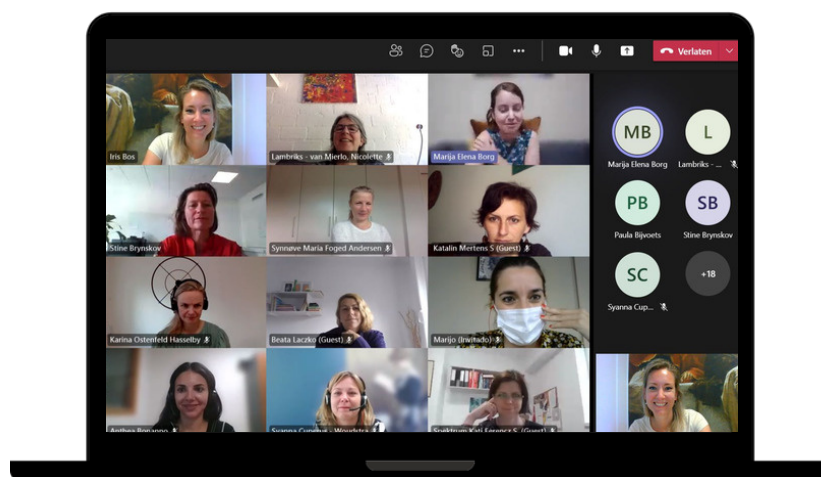

Can be downloaded on all iOS and Android devices

A downloadable user guide is also available on the project's website. This gives a step-by-step explanation of how to use the LEADER game, both from a trainee/trainer perspective.

Updates

Online training activity -

In June 2021, the LEADER project partners hosted a 3-day online learning activity for selected teachers and trainers. The intention behind this was to raise awareness about the importance of soft skills, but also to provide the opportunity for teachers and trainers to be the first to test the developed LEADER e-learning platform and serious game, and subsequently provide their feedback for final improvement.

Final project meeting -

The final project meeting was held in Brasov, Romania in October 2021. During this meeting, project partners finalised the tools for soft skills training, and consolidated dissemination strategies. A promo video was launched, which can be viewed here:
