

SKELLEFTEÅ MEETING

Last December, the partners were hosted by Urkraft, in Skellefteå, Sweden, to round up 2023 and set the stage for the final year of the project. The primary purpose of this meeting was to coordinate the partners' work over the last 6 months and conclude outputs.

EXPANDED PLATFORM

Progress is well underway on expanding the original LEADER platform, gearing up to introduce new and enhanced tools in the coming months. The revamped platform will sport a fresh design tailored to appeal to a broader audience, specifically targeting teenagers and young adults preparing to enter the labour market. The framework of the LEADER ScaleUp platform extends the training beyond soft skills, encompassing areas such as digital literacy, leadership skills, vocational training, and sustainability skills aligned with the SDGs.

NEW RESOURCES

Our new resources will include educational videos, interactive classroom and office activities, and the official LEADER ScaleUp Board Game and the Card Game, available for download to allow offline usage. The expanded platform is intended to not only cater to VET students, but also to companies and micro-entrepreneurs, thereby offering comprehensive skill development opportunities for professionals at all stages of their careers. Check out the below section for updates on the LEADER ScaleUp videos as well as on the Board Game and Card Game activities!

LEADER SCALEUP VIDEOS AND ACTIVITIES

Check out the [LEADER ScaleUp videos](#), developed by SEC, designed to enrich the educational experience for our trainees. These videos cover a range of topics, from identifying digital resources and creating interactive materials to utilising VR, AR, and AI for skill enhancement. Soon, these will be embedded on our new platform - stay tuned for updates!

In Skellefteå, different versions of the Board Game and the Card Game were tested by the team. After feedback was shared and discussed amongst the partners, BDF went back to the drawing board to refine the activities. As we are still in the process of development, we cannot give away too much. However, we can hint that the games will feature a mix of questions, challenges, and rewards, all within a race against time!

WHAT'S NEXT?

It is indeed a busy period for the LEADER ScaleUp team! All 7 partners are fully engaged in finalising all activities to prepare for the upcoming piloting sessions in April. Our revamped platform will be up and running by then, so stay tuned for further updates!

These efforts aim to equip future European business leaders with essential skills in the coming years.
