

SAN SEBASTIÁN MEETING

In May, the partners met for the final time in **San Sebastián, in the Basque Country**. Rich in history, the team was fortunate to have the opportunity to explore this coastal city nestled between the picturesque Urgull and Igeldo mountains. The LEADER team was hosted by CEBANC, where they gained insights into how the training centre prepares young professionals through open, inclusive education that enhances both professional skills and personal values. The extensive 2-day meetings centered on exchanging piloting feedback and brainstorming outreach activities once the platform is complete. **Exciting opportunities and initiatives are in store!**

PRACTICAL IMPLEMENTATION

With the project's final months in full swing, the team is strategising on how to **maximise the impact** of the project. FIRDA are actively scheduling meetings with enthusiastic colleagues to discuss the next steps. The aim is to ensure that the developed resources make a meaningful difference in the **educational landscape**. Simultaneously, BDF, BLM, and MBB are focused on ensuring that these materials become a practical and effective tool for employee training, extending the benefits **beyond the classroom and into the workplace**.

SAVE THE DATE

Save the date for our online launch event of the LEADER Scale Up project on **17.09.2024** from **15:00 to 17:00** CET. After 2 years of dedicated effort, our team is excited to unveil the project's final products. These innovative tools are designed to enhance soft skills, citizenship, leadership, sustainability, and digital skills in a fun and engaging way. Stay tuned for more details!
